

Mobile phone pupil agreement and social story

Many of our children have long journeys to and from school.

Some of these children bring their mobile phones or other devices to school to help occupy them during their journey. Other pupils might bring their mobile phone or device to help keep them safe or feel safe. This is OK.

Once inside school please turn your device off. You must then hand over your mobile phone or devices to staff. The member the staff will put it in the box which is kept in the school office. It will be secure and no other children will be able to touch it.

At home time you will be handed your device at the exit door.

We know that some of you have each others' contact numbers. It is important that you communicate in a safe and kind way. You must not share another person's number without permission. Images should not be shared without permission.

Tell an adult in school or at home if you think someone has sent an unkind message or inappropriate images about you or other pupils.

Signed _____ (pupil)

Signed _____ (parent/
carer)
